Tensión (V)	230 V / 50 Hz / 1 Ph
Capacidad de bomba (l/min)	8.5

Descripción

The Karömat 165B is a powerful and versatile high pressure cleaner. The high-pressure cleaner is equipped with various accessories, such as a lance, terrace cleaner and rotating brushes. This way you can do the job you have in mind. Thinking of car washing, cleaning the terrace or possibly cleaning the loft. With the built-in hose reel you can go a long way without moving the high pressure cleaner. The high pressure cleaner is equipped with an automatic stop system, so as soon as something goes wrong, this machine will not continue to blow. To move the machine, wheels and a bracket are mounted on the machine. The casing protects the machine from water jets, because the seal is IPX5. The high-pressure cleaner is also equipped with a side holder, so that when you are finished or just want to take a break, you can place the lance and / or gun in the holder. This way it all stays neatly together. The Karömat 165B is suitable for the most varied jobs. It is a reliable and robust machine that you will have a lot of fun with when you want to clean your property with a high pressure cleaner.
