Rango de consumo de aire (l/min)	320-390
Presión de trabajo (bar)	5
Blíster	No
Tamaño de la conexión (")	1/4
Capacidad de tanque (ml)	400

Descripción

Pistols 45184 HP (High Pressure) They are designed to apply denser coatings, including construction. * The model is available with a 2.5 or 3mm nozzle. Lateral arrangement of the tank allows you to precisely apply the coating also in the corners. 400 ml aluminum tank allows for the application of more aggressive coatings. Especially recommended for painting wood, walls, composites and applying preservative layers.
